Black Gloss har tendens til hurtigere at vise tegn på slid end lysere højglansfarver.

ColorCore® kan fås i udvalgte designs fra Formicas Color sortiment. På grund af ColorCores særlige karakteristika, er det ikke altid muligt nøjagtigt, at matche farverne mellem ColorCore og Formica Colors. Vi anbefaler sammenligning af de faktiske prøver inden specifikation eller produktion.

Alle ColorCore® laminater leveres med transportfolie.

Kvalitet HPL/EN 438-9 BTS

Gennemfarvet, standard kvalitet, tyndt dekorativt højtrykslaminat.

Med Mode får du den mest ultimative mulighed for kreativitet på baggrund af et allerede lagerført mønster. Tre skalaer giver forskellige perspektiver fra det "tekstile" til det stramme geometriske udtryk. Muligheder for positiv/negativ gengivelse giver endnu flere udtryk at vælge imellem. Det tidløse udtryk i den prikkede grafik understreges med det tilfældige layout som et friskt pust. Vælg blandt de viste mønstre ovenfor, eller design dine helt egne kombinationer af prikker med alle Formicas® almindelige farver efter systemerne NCS, RAL eller PMS.

Valget af overflade er vigtigt, både funktionelt såvel æstetisk. Følgende overflader er velegnet til lodrette og lette horizontale anvendelser, hvor laminaten ikke vil være i kontakt med emner som kan forårsage beskadigelser i overfladen: Rigato (RT), Gloss (90), Naturelle (NT), NDF (11), Softmat (73).

CGS standard (promoted) tykkelser:

En-sidet Compact: 2, 2.5 og 3 mm

To-sidet Compact: 4, 6, 8, 10, 12, 13, 16, 18 og 20 mm

Alle DecoMetal® laminater leveres med transportfolie.

Kvalitet HPL/EN 438-8 MTF
Kvalitet HPL/EN 438-8 MTP

Metal, brandhæmmende, tyndt dekorativt højtrykslaminat.
Metal, postformbart, tyndt dekorativt højtrykslaminat.

MTF & MTP kvaliteter er anbefalet til lodrette applikationer.

DecoMetal® laminat lever op til standarden EN438:2005 i MTF-kvalitet med IMO/MED og USCG brandkravsgodkendelse. Specifikke detaljer kan fås ved henvendelse.

Produkt beskrivelse

Formica® Laminate

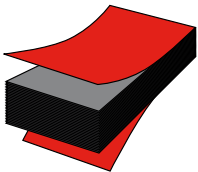

THE ORIGINAL HIGH PRESSURE LAMINATE by FORMICA GROUP

Formica® højtrykslaminat (HPL) er produceret ved sammenpresning af adskillige lag imprægneret papir, under højt tryk og ved høje temperaturer. Det giver et slidstærkt, holdbart og hygiejnisk overflademateriale. Formica® Colors, Patterns og Woods sortimentet består af højtrykslaminat, der som standard fås i kvaliteten horisontal postformning (HGP). Brandhæmmende HPL (VFP-kvalitet) er også muligt. Forhør venligst.

Formica® Compact

STRUCTURAL LAMINATES by FORMICA GROUP

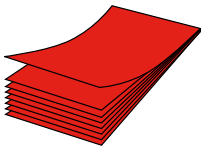

Formica® Compact er strukturhøjtryks-laminat, opbygget af flere lag kraftpapir til tykkelser på 2 mm til 20 mm. Det har en dekorativ overflade på begge sider og er velegnet til indendørs brug i badekabiner, garderober, vægpaneler eller laboratoriemøbler. Det kan især med fordel anvendes på steder med høj luftfugtighed og belastning. Med en rumvægt på 14 kg/m² (ved 10 mm tykkelse) er Compact imponerende stærk samt modstandsdygtig mod skader og har en uovertruffen strukturel stabilitet, idet det ikke er nødvendigt at anvende et bærelag ved tykkelser over 6 mm. Formica® Compact er CE-mærket og således i overensstemmelse med eller over den europæiske standard for forbrugersikkerhed, sundhed og miljøkrav.

ColorCore®

by FORMICA GROUP

SOLID COLOUR LAMINATES

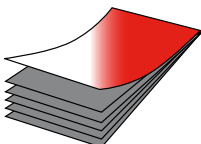

ColorCore® fra Formica Group er et dramatisk og spændende overflademateriale, der med en tykkelse på 1,3 mm har de samme funktionelle egenskaber som Formicas® dekorative laminaer, men med den ekstra gennemfarvede dimension. Den homogene farve forebygger den mørke aftegning, der opstår på hjørner/kanter når 2 laminaer mødes i en samling, og tillader endvidere dekorative effekter, som kan opnås ved indgravning og sandblæsning. ColorCore®, i overfladen Matte 58, øger anvendelsesmulighederne og reducerer den visuelle oplevelse af skader og ridser. ColorCore er ideelt til anvendelse i salgsdiske, salgsstande, døre og arbejdsoverflader.

ColorCore kan fås i udvalgte designs fra Formicas Color sortiment. På grund af ColorCores særlige karakteristika, er det ikke altid muligt nøjagtigt at matche farverne mellem ColorCore og Formica Colors. Vi anbefaler sammenligning af de faktiske prøver inden specifikation eller produktion.

PREMIUM GLOSS FINISH by FORMICA GROUP

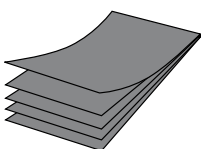

AR Plus® højglans Colors og Woods er et problemfrit holdbart højglanslaminat, hvis overfladeegenskaber er dobbelt så gode som standard højglanslaminat. AR Plus teknologien giver en højglansoverflade, som er ekstremt modstandsdygtig over for slid og skrabemærker, hvilket giver højglanslaminatet en længere levetid. AR Plus højglanslaminat er 1.2 mm tykt i postformningskvalitet. På grund af dette materiales øgede tykkelse, anbefales en minimumradius på 15 mm. Brandhæmmende AR Plus laminat (FAR kvalitet) er også muligt. Forhør venligst.

DecoMetal®

by FORMICA GROUP

METAL LAMINATES

DecoMetal® fra Formica Group er et højtrykslaminat produceret med ægte metalfolier på en laminatkerne, hvilket giver et dekorativt metallaminat med god holdbarhed, men med meget lav vægt i forhold til metalplader. Metallaminat kan i nogle designs, forsynes med specielle overflader og mønstre for at opnå fantastiske effekter. Metallaminat kan fås i et komplet sortiment af fantastiske farver, mønstre og kvaliteter. Den nominelle tykkelse varierer afhængigt af metalfolie og overflade.

DecoMetal® laminat lever op til standarden EN438:2005 i MTF-kvalitet med IMO/MED og USCG brandkravsgodkendelse. Specifikke detaljer kan fås ved henvendelse.

Denne kollektion indeholder følgende kvaliteter af dekorativt laminat med hver deres unikke karakteristiske egenskaber. Disse kvaliteter er i overensstemmelse med EN438:2005.

Formica® Laminat

- Kvalitet HPL/EN 438-3 HGP** Horisontal, generel anvendelse, postformningsbart dekorativt højtrykslaminat (0,7 mm nominal tykkelse).
Kvalitet HPL/EN 438-3 HGS Horisontal, generel anvendelse, standard dekorativt højtrykslaminat (0,7 mm nominal tykkelse).
Kvalitet HPL/EN 438-3 VFP Vertikal, brandhæmmende, postformningsbart dekorativt højtrykslaminat (0,7 mm nominal tykkelse).

AR Plus® by Formica Group

- Kvalitet PAR** Slidstærk, højglans, postformningsbart dekorativt højtrykslaminat.
Kvalitet FAR Brandhæmmende, højglans, standard dekorativt højtrykslaminat.

PAR og FAR findes ikke i kvalitetsklassifikationssystemet EN 438.

ColorCore® by Formica Group

- Kvalitet HPL/EN 438-9 BTS** Gennemfarvet, standard kvalitet, tyndt dekorativt højtrykslaminat.

Formica® Compact

- Kvalitet HPL/EN 438-4 CGS** Kompakt, generel anvendelse, standard dekorativt.
EN 13501 Euroclass C-s1,d0
Kvalitet HPL/EN 438-4 CGF Kompakt, generel anvendelse. Brandhæmmende dekorativt højtrykslaminat.
EN 13501 Euroclass ≥ 6 mm B-s1,d0
< 6 mm B-s2,d0

DecoMetal® by Formica Group

- Kvalitet HPL/EN 438-8 MTF** Metal, brandhæmmende, tyndt dekorativt højtrykslaminat.
Kvalitet HPL/EN 438-8 MTP Metal, postformbart, tyndt dekorativt højtrykslaminat.

MTF & MTP kvaliteter er anbefalet til lodrette applikationer.

DecoMetal® laminat lever op til standarden EN438:2005 i MTF-kvalitet med IMO/MED og USCG brandkravsgodkendelse. Specifikke detaljer kan fås ved henvendelse.

ISO 14001:2004
